

Activity in 2001

Field work

Foot levelling (double run, releveling excluded):	299 km
Metria:	83 km
In total	382 km

4,7 % releveling (4,7 / 4,7)

Fjord crossings:	0
Control levelled tide gauges	5
Connections to Stamnett/Landsnett	52

Planned field work 2002

Statens Kartverk	325 km
Others (Metria)	205 km

We will then be 50 km behind the General levelling plan.

Other activities

- Preliminary analyses of the levelling network.
- HREF - a national "geoid model".
- Data into the database.
 - Sketches
 - Connections to the trigonometrical network.
 - Railway levellings.
- The benchmark database on WEB.

General plan for levelling
