

# "User needs for GNSS at high latitudes"

- Differences?
  - **Satellite visibility (MEO, GEO)**
  - **Atmospheric conditions**
  - **Specific local conditions**
  - **Specific applications**
  - **RFI management**
- User needs?
- What can we do?
  - **Galileo?**
  - **Augmentations?**
  - **User/application projects/test-beds?**
  - **Regulatory measures**
